

ARIF WINANDA LUBIS

Web Developer and Data Engineer Enthusiast

Arifwinanda3340@gmail.com | Bandung, West Java, Indonesia | <https://www.linkedin.com/in/arif-winanda-lubis-190b05270>

Summary

Fresh Graduate from Information Technology student at Telkom University with a background in software development, programming, and database management. Experienced in developing web and mobile applications. Possesses strong analytical skills, problem-solving abilities, and organizational experience. Competent in working both in teams and individually, detailed, responsible, and committed to providing the best contribution in the field of information technology.

Education

Telkom University

Bandung

Bachelor of Informartion Technology

2026

- GPA: 3.40 / 4.00
- Coursework : Object-Oriented Programming, Database Management Systems, Web & Mobile Application Development, Software Engineering, Computer Networks & Security, Artificial Intelligence & Machine Learning.

Experience

Web Developer Internship

Bandung

Dinas Komunikasi dan Informatika Provinsi Jawa Barat

July – September 2025

- Engineered and developed the ITSO internal web application utilizing the Laravel (PHP) framework as the primary core architecture.
- Built dynamic filtering capabilities handling complex multi-variable data tables using JavaScript DataTables and designed interactive data visualization charts with Chart.js.
- Managed secure web archival systems by integrating Role-Based Access Control (RBAC) to ensure strict data governance.
- Optimized automated background server management and enhanced data accessibility by configuring automated Linux cron-jobs.

Backend Developer

Bandung

Web Project By Sekretariat Daerah Pemerintah Provinsi Jawa Barat

September 2025 – January 2026

- Developed a comprehensive, full-scale internal employee enterprise platform incorporating a daily work reporting module and an asset inventory tracker.
- Architected and deployed robust RESTful APIs built on top of the Laravel (PHP) framework to handle seamless back-end transactions.
- Implemented secure Role-Based Access Control (RBAC) layers to protect sensitive government data assets and streamline internal cross-departmental tracking.

Lecturer Assistant of IoT Intelligent Systems

Bandung

Faculty of Informatics Telkom University

February 2026 – June 2026

- Assisted senior lecturers in delivering core concepts of Artificial Intelligence, Machine Learning, and Internet of Things (IoT) architectures to students.
- Guided and mentored students through the data preprocessing, cleaning, and optimization phases to ensure high-quality data management for their IoT system projects.
- Evaluated student practical assignments, lab protocols, and embedded hardware configurations utilizing microcontrollers and communication protocols.
- Provided technical troubleshooting and advisory support for student-designed smart system integration, maximizing data collection reliability and project outcomes.

Leadership & Activities

Student Association of Information Technology Student (HMIT) Telkom University
Member and Chairman

Bandung
2024 – 2026

- Served as the Chief Executive Officer to lead, direct, and oversee strategic operations, financial budgeting, and work programs for over 58 (fifty eight) active committee members.
- Spearheaded structural organizational reforms and strategic planning that increased student engagement and maximized collaborative partnerships with external institutions.
- Supervised the execution of large-scale student events and cross-functional working plans, ensuring all milestones were achieved within deadlines and under budgetary controls.
- Acted as the primary representative to negotiate, align goals, and maintain relations with university stakeholders, faculty members, and external industry partners.

Society of Renewable Energy (SRE) – Telkom University
Member

Bandung
2023- 2024

- Actively participated in focused study groups and workshops exploring new developments in renewable energy technologies, sustainability frameworks, and green digital solutions.
- Assisted in organizing student-led seminars and community awareness campaigns to promote energy conservation practices and sustainability within the university environment.

Skills

- **Programming Languages & Frameworks:** PHP (Laravel), JavaScript, Java, NextJS, RESTful APIs, Android Mobile App Development.
- **Web & Front-end Tools:** HTML, CSS, JavaScript DataTables, Chart.js, Interactive Data Visualization.
- **Database & Systems:** Database Management, Role-Based Access Control (RBAC), Server Automation (Cron-jobs), System Archival Systems.
- **Core Competencies:** Artificial Intelligence (AI) & Machine Learning, Internet of Things (IoT) Systems, Hardware Troubleshooting, Software Development Life Cycle (SDLC).
- **Soft Skills & Software:** Leadership (Chairperson), Event Planning, Microsoft Office (Word, Excel, PowerPoint).
- **Languages:** Indonesian (Native), English (Professional/Active)
